Last Friday was a happy day to Inha students with Ulvac Korea Company. ISL and Ulvac Korea arranged a field trip for engineering students and students who have interests in this field trip to tour Ulvac factories of November 27th. to help students to know something about Korea company.

Ulvac Korea is a famous company for producing equipment which related with the most advanced semiconductor, LCD and a solar battery technology. In this tour, there were many people who have different nationalities such as Korea, China, Indonesia, Sri Lanka and Thailand.

PackCuonliao, The CEO of Ulvac, he and his staff welcomed Inha students enthusiastically. He introduced the whole company to Inha students. When presentation was finished, President Park said he was graduated from Inha University. Many students were very happy for that. Also he answered students’ questions clearly. The atmosphere was alive with communication between students and him.

We visited 3 different plants of Ulvac and in each plant there was a guide to introduce their plant to us. His explanation was perfect and our questions were clearly solved. So it became easier minute by minute. All Inha students got a good memory in this trip. This activity was interesting and meaningful to us. Thank you!

Hello, every one. It's R.K. I am one of ISL volunteers. How have you been up to? Weather is getting cold, isn't it? I hope everyone doesn't catch a cold. Anyway, I would like to talk about the ISL picnic that we had on September 30th. It was pretty shame that we have only a few students on the previous ISL picnic. However, at this time over 30 students joined up. Thank you for all the students' co operations :) Before the picnic, weather forecast said that it would rain on the day. But, fortunately, the weather was unbelievably clean and even hot! Most students came right on time, so we could have wonderful lunch together with bitchin' and awesome Han-sot lunchboxes. It was pretty much worth it, not only because of having delicious lunch, but also because both international students and Korean volunteers had chances to get to know and talk with each other. It could have been more fun if we had done some activities that we prepared. However, I think next ISL picnic will have several activities, for sure. Before wrapping up this article, I would like to say thank you for all the participants who spent valuable time with me on the picnic. I will never forget. Best regards, R.K.

**Movie night (Speedy Scandal)**

Hi–! Everyone I’m an ISL volunteer, Dong-hoon Lee. This is about “the fast scandal” that we watched on 30th of October. It was for international students, so me & other volunteers had prepared several days to inform them what we were going to do.

We were worried about if a few students come for the movie night. So before the beginning time, I went out to make more people got interests.

I made a fingerpost on the floor to show the way to ISL & I thought this sign was going to make many friends come.

Finally the movie was about to start in a minute. I was so disappointed of there was not many students. However the movie had to be started as arranged.

But during the running time, suddenly the door was opened & lots of students came in. I was so happy :) As movie was so funny, everyone laughed all the time. We had great time with international students.

Here’s the thing. ISL is always waiting for you to come. So please keep in touch with us. We do have a lot of things for you. I bet you can learn many things and experiences something you don’t know. Please visit ISL freely.
